QUIT CLAIM DEED

THIS INDENTURE, made this 10TH day of JUNE, A.D. 2005, between Southwest Florida Water Management District, whose address is 2379 Broad Street, Brooksville, FL 34604-6899, GRANTOR, and Charlotte Sarasota Holdings, LLP, a Florida limited liability partnership, whose post office address is 2911 NE Pine Island Road, Cape Coral, FL 33909, GRANTEE,

(Wherever used herein the terms "GRANTOR" and "GRANTEE" include all the parties to this instrument and their heirs, legal representatives, successors and assigns. "GRANTOR" and "GRANTEE" are used for singular and plural, as the context requires and the use of any gender shall include all genders.)

WITNESSETH: That the said GRANTOR, for and in consideration of the sum of Ten Dollars, to said GRANTOR in hand paid by said GRANTEE, the receipt whereof is hereby acknowledged, has released, remised and quitclaimed, and by these presents does hereby remise, release, and quitclaim unto the said GRANTEE, and GRANTEE'S successors and assigns forever, all the right, title and interest of GRANTOR in and to the following described land situate, lying and being in Charlotte County, Florida, to-wit:

See Exhibit "A" Attached

This property is not the homestead property of the GRANTOR, nor contiguous to homestead property, as such homestead is defined under Florida law.

The Property is conveyed subject to the following perpetual restrictive covenant ("Restrictive Covenant") hereby imposed by GRANTOR and accepted by GRANTEE, its successors and assigns:
Residential development of the Property shall be limited to 1.5 units per acre. This Restrictive Covenant shall only apply to limit the number of residential units that can be developed on the Property and shall not limit GRANTEE and its successors and assigns from developing any other improvement on the Property that complies with the existing or future Charlotte County Zoning Code or that may be approved under a planned unit development. GRANTEE shall obtain all required federal, state, and local regulatory approvals and permits prior to the construction of any improvements on the Property. Nothing herein shall be construed to bind, require or encourage Charlotte County to increase current allowable residential density from its current Preservation land use designation of one development unit per 40 acres. GRANTEE shall obtain all required federal, state and local regulatory approval and permits prior to any construction.

By acceptance of this quitclaim deed, GRANTEE hereby agrees that the use of the Property shall be subject to this Restrictive Covenant. This Restrictive Covenant shall run with the title to the Property in perpetuity and be binding upon GRANTEE and all successive owners (and all parties claiming by, through and under the owners) of the Property. Until such time as the Restrictive Covenant is released from the Property, GRANTOR shall be deemed a third party beneficiary of this Restrictive Covenant in a court of competent jurisdiction. GRANTOR shall have the authority to enforce this Restrictive Covenant in any judicial proceeding seeking any remedy recognizable at law or in equity, including an action or lawsuit seeking damages, injunction, specific performance, or any other form of relief, against any person, firm or entity violating or attempting to violate any provision of this Restrictive Covenant. The failure by GRANTOR to enforce any covenant or restriction contained herein shall in no event be deemed a waiver of such covenant or restriction or of the right of GRANTOR to thereafter enforce said covenant or restriction. The invalidation of any provision of this Restrictive Covenant by a court of competent jurisdiction shall in no way affect any of the other provisions of this Restrictive Covenant, which shall remain in full force and effect. Venue for enforcement actions regarding this Restrictive Covenant shall be in the Circuit Court of Hernando County, Florida. GRANTEE agrees to incorporate this Restrictive Covenant in any subsequent deed or other written legal instrument by which GRANTEE transfers or conveys fee simple title or any other lesser estate in the Property or any part thereof to a third party by making an express reference to the Restrictive Covenant and specifically identifying the official records book and page at which this quitclaim deed is recorded in the public records of Charlotte County, Florida.

TO HAVE AND TO HOLD the above described lands subject to all outstanding easements, reservations and other interests, the same together with all and singular the appurtenances thereunto belonging or in anywise appertaining, and all the estate, right, title, law or equity, to the only proper use, benefit and behoof of the said GRANTEE, its successors and assigns forever.

IN WITNESS WHEREOF the GRANTOR has hereunto set GRANTOR'S hand and seal, the day and year first above written.

THIS INDENTURE, made this 10TH day of JUNE, A.D. 2005, between Southwest Florida Water Management District, whose address is 2379 Broad Street, Brooksville, FL 34604-6899, GRANTOR, and Charlotte Sarasota Holdings, LLP, a Florida limited liability partnership, whose post office address is 2911 NE Pine Island Road, Cape Coral, FL 33909, GRANTEE,

(Wherever used herein the terms "GRANTOR" and "GRANTEE" include all the parties to this instrument and their heirs, legal representatives, successors and assigns. "GRANTOR" and "GRANTEE" are used for singular and plural, as the context requires and the use of any gender shall include all genders.)

WITNESSETH: That the said GRANTOR, for and in consideration of the sum of Ten Dollars, to said GRANTOR in hand paid by said GRANTEE, the receipt whereof is hereby acknowledged, has released, remised and quitclaimed, and by these presents does hereby remise, release, and quitclaim unto the said GRANTEE, and GRANTEE'S successors and assigns forever, all the right, title and interest of GRANTOR in and to the following described land situate, lying and being in Charlotte County, Florida, to-wit:

See Exhibit "A" Attached

This property is not the homestead property of the GRANTOR, nor contiguous to homestead property, as such homestead is defined under Florida law.

The Property is conveyed subject to the following perpetual restrictive covenant ("Restrictive Covenant") hereby imposed by GRANTOR and accepted by GRANTEE, its successors and assigns:
Residential development of the Property shall be limited to 1.5 units per acre. This Restrictive Covenant shall only apply to limit the number of residential units that can be developed on the Property and shall not limit GRANTEE and its successors and assigns from developing any other improvement on the Property that complies with the existing or future Charlotte County Zoning Code or that may be approved under a planned unit development. GRANTEE shall obtain all required federal, state, and local regulatory approvals and permits prior to the construction of any improvements on the Property. Nothing herein shall be construed to bind, require or encourage Charlotte County to increase current allowable residential density from its current Preservation land use designation of one development unit per 40 acres. GRANTEE shall obtain all required federal, state and local regulatory approval and permits prior to any construction.

By acceptance of this quitclaim deed, GRANTEE hereby agrees that the use of the Property shall be subject to this Restrictive Covenant. This Restrictive Covenant shall run with the title to the Property in perpetuity and be binding upon GRANTEE and all successive owners (and all parties claiming by, through and under the owners) of the Property. Until such time as the Restrictive Covenant is released from the Property, GRANTOR shall be deemed a third party beneficiary of this Restrictive Covenant in a court of competent jurisdiction. GRANTOR shall have the authority to enforce this Restrictive Covenant in any judicial proceeding seeking any remedy recognizable at law or in equity, including an action or lawsuit seeking damages, injunction, specific performance, or any other form of relief, against any person, firm or entity violating or attempting to violate any provision of this Restrictive Covenant. The failure by GRANTOR to enforce any covenant or restriction contained herein shall in no event be deemed a waiver of such covenant or restriction or of the right of GRANTOR to thereafter enforce said covenant or restriction. The invalidation of any provision of this Restrictive Covenant by a court of competent jurisdiction shall in no way affect any of the other provisions of this Restrictive Covenant, which shall remain in full force and effect. Venue for enforcement actions regarding this Restrictive Covenant shall be in the Circuit Court of Hernando County, Florida. GRANTEE agrees to incorporate this Restrictive Covenant in any subsequent deed or other written legal instrument by which GRANTEE transfers or conveys fee simple title or any other lesser estate in the Property or any part thereof to a third party by making an express reference to the Restrictive Covenant and specifically identifying the official records book and page at which this quitclaim deed is recorded in the public records of Charlotte County, Florida.

TO HAVE AND TO HOLD the above described lands subject to all outstanding easements, reservations and other interests, the same together with all and singular the appurtenances thereunto belonging or in anywise appertaining, and all the estate, right, title, law or equity, to the only proper use, benefit and behoof of the said GRANTEE, its successors and assigns forever.

IN WITNESS WHEREOF the GRANTOR has hereunto set GRANTOR'S hand and seal, the day and year first above written.

QUIT CLAIM DEED

THIS INDENTURE, made this 10TH day of JUNE, A.D. 2005, between Southwest Florida Water Management District, whose address is 2379 Broad Street, Brooksville, FL 34604-6899, GRANTOR, and Charlotte Sarasota Holdings, LLP, a Florida limited liability partnership, whose post office address is 2911 NE Pine Island Road, Cape Coral, FL 33909, GRANTEE,

(Wherever used herein the terms "GRANTOR" and "GRANTEE" include all the parties to this instrument and their heirs, legal representatives, successors and assigns. "GRANTOR" and "GRANTEE" are used for singular and plural, as the context requires and the use of any gender shall include all genders.)

WITNESSETH: That the said GRANTOR, for and in consideration of the sum of Ten Dollars, to said GRANTOR in hand paid by said GRANTEE, the receipt whereof is hereby acknowledged, has released, remised and quitclaimed, and by these presents does hereby remise, release, and quitclaim unto the said GRANTEE, and GRANTEE'S successors and assigns forever, all the right, title and interest of GRANTOR in and to the following described land situate, lying and being in Charlotte County, Florida, to-wit:

See Exhibit "A" Attached

This property is not the homestead property of the GRANTOR, nor contiguous to homestead property, as such homestead is defined under Florida law.

The Property is conveyed subject to the following perpetual restrictive covenant ("Restrictive Covenant") hereby imposed by GRANTOR and accepted by GRANTEE, its successors and assigns:
Residential development of the Property shall be limited to 1.5 units per acre. This Restrictive Covenant shall only apply to limit the number of residential units that can be developed on the Property and shall not limit GRANTEE and its successors and assigns from developing any other improvement on the Property that complies with the existing or future Charlotte County Zoning Code or that may be approved under a planned unit development. GRANTEE shall obtain all required federal, state, and local regulatory approvals and permits prior to the construction of any improvements on the Property. Nothing herein shall be construed to bind, require or encourage Charlotte County to increase current allowable residential density from its current Preservation land use designation of one development unit per 40 acres. GRANTEE shall obtain all required federal, state and local regulatory approval and permits prior to any construction.

By acceptance of this quitclaim deed, GRANTEE hereby agrees that the use of the Property shall be subject to this Restrictive Covenant. This Restrictive Covenant shall run with the title to the Property in perpetuity and be binding upon GRANTEE and all successive owners (and all parties claiming by, through and under the owners) of the Property. Until such time as the Restrictive Covenant is released from the Property, GRANTOR shall be deemed a third party beneficiary of this Restrictive Covenant in a court of competent jurisdiction. GRANTOR shall have the authority to enforce this Restrictive Covenant in any judicial proceeding seeking any remedy recognizable at law or in equity, including an action or lawsuit seeking damages, injunction, specific performance, or any other form of relief, against any person, firm or entity violating or attempting to violate any provision of this Restrictive Covenant. The failure by GRANTOR to enforce any covenant or restriction contained herein shall in no event be deemed a waiver of such covenant or restriction or of the right of GRANTOR to thereafter enforce said covenant or restriction. The invalidation of any provision of this Restrictive Covenant by a court of competent jurisdiction shall in no way affect any of the other provisions of this Restrictive Covenant, which shall remain in full force and effect. Venue for enforcement actions regarding this Restrictive Covenant shall be in the Circuit Court of Hernando County, Florida. GRANTEE agrees to incorporate this Restrictive Covenant in any subsequent deed or other written legal instrument by which GRANTEE transfers or conveys fee simple title or any other lesser estate in the Property or any part thereof to a third party by making an express reference to the Restrictive Covenant and specifically identifying the official records book and page at which this quitclaim deed is recorded in the public records of Charlotte County, Florida.

TO HAVE AND TO HOLD the above described lands subject to all outstanding easements, reservations and other interests, the same together with all and singular the appurtenances thereunto belonging or in anywise appertaining, and all the estate, right, title, law or equity, to the only proper use, benefit and behoof of the said GRANTEE, its successors and assigns forever.

IN WITNESS WHEREOF the GRANTOR has hereunto set GRANTOR'S hand and seal, the day and year first above written.

HARBOR VILLAGE

“the pinnacle of coastal elegance and modernity”

Embrace a lifestyle where the waterfront isn’t mere scenery; it’s an integral part of daily life—a playground for water enthusiasts and fishing aficionados alike. However, Harbor Village transcends mere residential offerings; it’s a meticulously crafted ecosystem where retail, commercial services, and communal spaces seamlessly intertwine, fostering a vibrant, walkable community. From sun-drenched promenades to bustling commercial hubs, every facet of Harbor Village is meticulously designed to enrich lives. It’s not just a place to reside; it’s a home where the serene melody of the ocean harmonizes with the lively pulse of a thriving local community.

Illustrative Concept Plan

COMMERCIAL:
Discover a community where convenience is paramount. With sleek office spaces fostering creativity and collaboration at its core, and chic retail storefronts just steps away, residents enjoy unparalleled access to personal services and daily essentials. Imagine the ease of having your favorite shops just a short stroll from your front door, ensuring that every errand is effortlessly completed within the vibrant pulse of your neighborhood.

COMMERCIAL/LIGHT INDUSTRIAL:
Discover a community where convenience reigns supreme. With modern office spaces and chic retail storefronts just steps away, residents enjoy unparalleled access to local goods, services, and employment opportunities. Our commitment to non-residential areas within the plan enhances the balance of land uses and reduces Vehicle Miles Traveled (VMT), aligning perfectly with the benefits of mixed-use projects.

WHARF MIXED USE:
Experience the dynamic lifestyle at The Wharf Mixed Use tract, located at the southern limits of the project. Integrating public marina facilities with up to 500 wet and dry boat slips per the Manatee Protection Plan, this area will feature highly amenitized civic spaces, commercial retail, restaurants, and potentially residential uses. Designed to create a true destination resort marina concept, residents of the project and Southwest Charlotte alike will enjoy waterfront living at its finest.

RESIDENTIAL:
A place where the West Indies style seamlessly intertwines with the modern comforts of luxury living. This residential community stands as a testament to the artistry of design while being a place to explore, thrive, and connect.

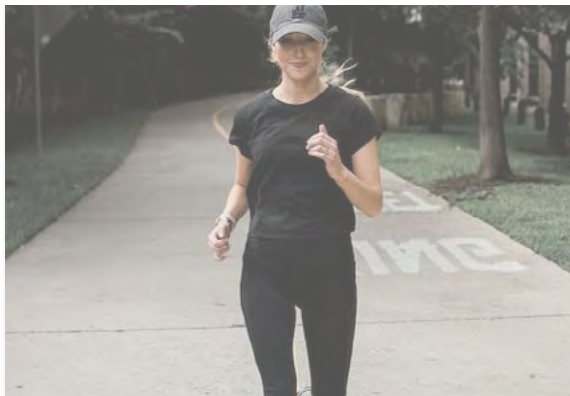

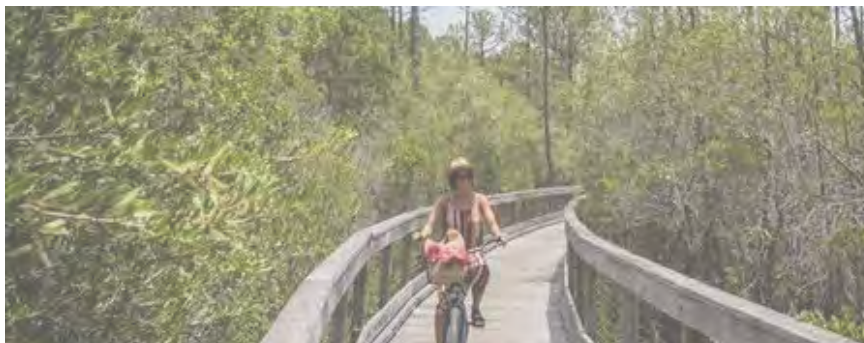

RESIDENTIAL WITH WATER-BASED USES:
Anchored by state-of-the-art public boat ramps and surrounded by a bustling pedestrian district, this space offers more than just a place to moor; it presents an interesting lifestyle possibility. A place of seamless integration of waterfront living and community connection.

MIXED USE:
Experience the allure of living amidst the pulse of activity. From the seamless blend of live-work lofts to the vibrant array of nearby retail and dining venues, each mixed-use lot epitomizes the essence of contemporary living. Picture yourself steps away from fine dining and premier shopping destinations, where every indulgence is within reach, enriching your daily life with effortless luxury and convenience.

Commercial
Visioning

From chic boutiques with wood detailing to bustling cafes that echo with the laughter, each establishment embodies the spirit of coastal living reimagined. Echoing the nostalgia of old downtown main streets, amidst ample space for pedestrian promenades and café seating, street trees sway gently beside planters and benches, while the air hums with the melodies of live music and the tranquil murmur of small fountains. Along the shops, a lively, activated edge thrives, where each storefront promises an experience, weaving together tradition and innovation in a vibrant tapestry of community life.

07

Mixed Use Visioning

Harbor Village boasts pedestrian-friendly streets, interconnected networks, and multiple access routes tailored for pedestrians, bikers, and automobiles alike, ensuring seamless connectivity and accessibility for all. Nestled within this dynamic setting are mixed-use opportunities that extend beyond commercial ventures, including charming shops imbued with local flair and serene boat docks and ramps.

Residents are seamlessly integrated into this vibrant ecosystem, offering a lifestyle where stepping outside means immersing oneself in the heart of downtown, embracing the allure of Southwest Florida, and discovering boundless possibilities.

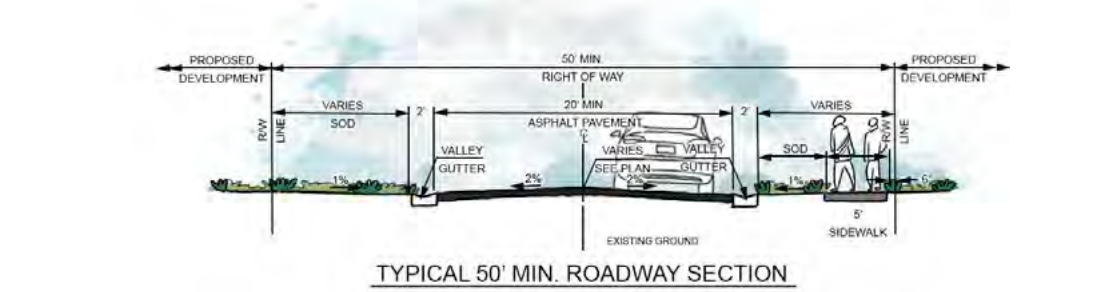

08

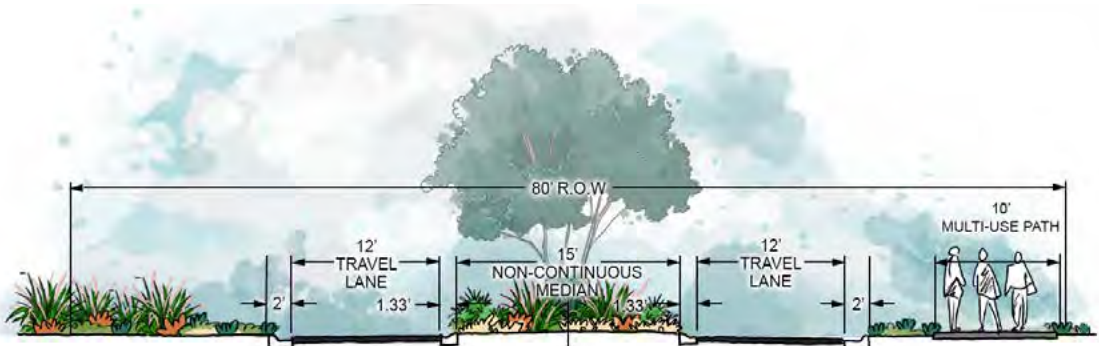

Saltwater Marsh

Saltwater marshes stand as living sanctuaries, meticulously crafted to restore and preserve vital wetland ecosystems. These marshes not only serve as havens for native flora and fauna but also encourage residents and visitors alike to explore their tranquil paths and trails. Also, the included public boat ramps offer gateways to aquatic exploration, fostering a sense of adventure and discovery. In a connection between conservation and recreation, saltwater marshes stand as an invitation and dedication to sustainability within the community.

Conclusion

Harbor Village perfectly captures the essence of coastal living, blending West Indies architecture with modern design. Its extensive marina is a standout feature, providing direct access to the water and fostering a deep connection to nature. The inviting streets and vibrant public spaces are designed to complement the waterfront setting, offering a haven for water enthusiasts and nature lovers. Here, every element harmonizes to create an unparalleled, integrated lifestyle experience, where the allure of the marina and the natural surroundings set it apart from other communities in Southwest Florida.

Request Narrative & Comprehensive Plan Consistency

HARBOR VILLAGE COMPREHENSIVE PLAN AMENDMENT REQUEST NARRATIVE

I. Request

Maronda Homes LLC of Florida (“The Applicant”) is requesting approval of Comprehensive Plan Text and Map Amendments to update the Master Land Use Plan (aka “Pattern Book”) and modify the Compact Growth Mixed Use (CGMU) and Preserve future land use areas on the 1,174+/-acre subject property.

This amendment will be supplemented by a companion PD Rezone application to rezone the southern 843+/-acres to establish a new PD Concept Plan/Rezone Site Plan and make other required changes to the schedule of uses and development standards to support the Client’s revised development program.

II. Existing Conditions

The Property is generally located south of the Myakka River, east of SR 776/Gasparilla Road and west of the Charlotte Harbor in southwestern Charlotte County. The subject property has over 2 miles feet of frontage on Gasparilla Road/SR 776 and is bisected by Cattedock Road.

The Property is currently designated Compact Growth Mixed Use (CGMU) and Preservation on the Future Land Use Map, approximately 1,089+/-acres of the site are CGMU while the balance of 85 acres is Preserve FLU. The Property is zoned a mix of Planned Development (PD), Residential Multi-Family (RMF-5), Residential Single-Family (RSF-2) and Environmentally Sensitive (ES). The Property is currently vacant and contains vegetation and wetlands. The site is within the Coastal High Hazard Area and Flood Zones AE-8 and AE-9.

III. Surrounding Land Use Pattern

This area is characterized as an urbanized area of the County by the existing mix at the intersection of S. McCall Road and Gasparilla Road/SR 776. Land uses include single family platted lots, commercial retail and industrial to the east; Village of Holiday Lake mobile homes park and a public park to the south; and open water/Myakka River to the north and east. Table 1 below further defines the surrounding Future Land Use designations, zoning districts and existing land uses.

Table 1: Inventory of Surrounding Lands

	FUTURE LAND USE	ZONING DISTRICT	EXISTING LAND USE
NORTH	Low Density Residential, Commercial	RSF3.5	Single Family Residential
SOUTH	Preservation	N/A	Peace River
EAST	Public Lands & Facilities, Low Density Residential, Medium Density Residential	RMF10, RSF3.5	Elementary School; Single- Family Residential
WEST	Public Lands & Facilities, Low Density Residential, Medium Density Residential	RMF10, RSF3.5	Charlotte County Utilities; Department; Single Family Residential

VI. Property History

In 2010, the Harbor Village CGMU district was adopted into the Charlotte County Comprehensive Plan pursuant to Ordinance 2009-002 to allow for a mixture of residential, commercial and light industrial uses on the subject property, commonly referred to as the “West County Town Center”.

Development per the Comprehensive Plan was limited to a maximum of 3,960 dwelling and 1,509,807 SF of non-residential uses based upon the maximum FAR of 0.0292. The CGMU future land use category required inclusion of a Master Land Use Plan, commonly referred to as the project's Pattern Book, to effectuate a compact, walkable and bicycle-friendly, mixed-use community.

Subsequent to the original approval, Ordinance 2021-005 was adopted to correct scrivener's errors relating to the maximum allowable FAR, conservation easement requirements and the date of the Master Land Use Plan.

Approximately 408 acres of the subject property was rezoned to Planned Development per Ordinance 2020-049 allowing for 1,000 dwelling units, 150 ALF beds, 200 hotel rooms, and up to 516,000 SF of non-residential uses (if no hotel rooms and ALF units are developed).

Development did not proceed per these approvals and the property remains undeveloped. Since these approvals were granted market demand has shifted significantly, resulting in the need to modernize and update the development program tied to the CGMU future land use approval.

VII. Proposed Amendment Justification

The amendment requests the following changes to the CGMU future land use category to support the Applicant's proposed development program:

- 1) Update the Future Land Use Map to designate 163.5+/- acres of the property's coastal wetland areas in the “Preserve” future land use category, while retaining 1,010.7+/- acres of CGMU over the developable areas and internal wetland; and
- 2) Update the Master Land Use Plan to provide a modern and marketable form of compact development centered around the property's marina.
- 3) Reduce the density from 3,690 dwelling units to 3,475 dwelling units and reduce the non-residential intensity from 1,509,807 SF to 1,400,000 SF - an FAR of 0.02724.
- 4) Add a public marina component with up to 500 wet and dry boat slips and mixed use development including commercial retail, restaurants, and residential uses.

The proposed amendments are further memorialized via the enclosed Pattern Book, which outlines the proposed conceptual land plan consisting of “Mixed Use”, “Commercial and Commercial/Light Industrial”, “Residential” and “Wharf Mixed Use” tracts.

The Commercial and Commercial/Light Industrial tracts line the arterial frontage along the west side of the property to provide local goods, services and employment for future residents and efficiently service the residents of proximate neighborhoods. This area of the County is generally underserved in employment generating land uses due to the extent of historical platting activities. Thus, the proposed committed non-residential areas on the plan will provide greater balance of land uses in the vicinity and ultimately reduce Vehicle Miles Travelled (VMT), as intended by mixed use projects.

Mixed Use tracts are proposed internal to the project to provide a transition between more intensive commercial and light industrial uses and internal residential neighborhoods. These areas will consist of both residential and non-residential uses, with the residential in the form of higher density

dwelling types such as townhomes, multi-family buildings and attached villas. These areas will also integrate neighborhood commercial retail and office uses that can be co-exist compatibly with the residential uses. While not intended for “vertical” integration of these uses, the Mixed Use tracts will be highly integrated from a horizontal perspective, with consistent architecture and theming, civic space including parks, seating areas, and other landscape/hardscape features to create a strong sense of place and link the housing to the commercial areas.

Residential tracts will be developed with a mix of dwelling types to accommodate a range of potential residents and price points. The lowest density areas are intended in the far eastern portion of the property where the land interfaces with the Myakka River. These lots will be larger and provide future residents with private docks to access the waterfront.

The Wharf Mixed Use tract is proposed in the southern limits of the project and will integrate public marina uses into the project with a maximum of 500 wet and dry boat slips per the Manatee Protection Plan. These areas will be highly amenitized with civic/public spaces, commercial retail, restaurants, as well as potential residential uses. The intent is for integrated waterfront uses to provide a true destination resort marina concept for the project residents and Southwest Charlotte as a whole.

The plan is sensitively designed around the internal freshwater wetland and coastal wetland areas to ensure environmental protections. The development will require further permitting through state and federal agencies confirm compliance with all water storage and water quality requirements.

VI. Charlotte Plan Consistency

The following is an analysis of how the proposed amendment is consistent with the goals, policies and objectives of the Charlotte County Comprehensive Plan.

“Consistency with Comprehensive Plan. The County shall issue all development orders or permits to be consistent with the Future Land Use Map (FLUM) Series and Charlotte 2050 Comprehensive Plan as specified in Chapter 163.3194, F.S. All County regulations, including the Zoning Code, Subdivision Regulations, and Zoning Atlas, are subordinate to the Plan and to the FLUM Series. Density and intensity increases shall only be allowed up to the maximum provided by the designation of the subject property; increases beyond the maximum shall require a comprehensive plan amendment to a higher intensity use should one exist.”

RESPONSE: The proposed amendment will reduce, rather than increase the allowable uses, increase land areas in the Preserve future land use category, and update the Pattern Book for consistency with current market demand. No change to the mix of land uses and percentages of required uses is proposed to ensure a compact, well-integrated and mixed use project.

ENV Policy 2.2.6: Environmental Land Protection. the County shall protect environmental lands using all available methods, including: land acquisition; incentives; land development requirements for the provision of conservation and preservation areas; and denial of increases in density and intensity.

RESPONSE: The FLUM amendment will increase the total acreage in the Preserve FLU, thereby upholding this policy.

FLU Objective 2.3: Water Quality and Quantity Protection. To enhance the significant assets associated with the County’s water-based resources by ensuring that the water quality of these resources is protected, and the water supply is not compromised.

RESPONSE: The project, as further outlined in the companion PD will protect and enhance water quality and protection in this sensitive area where the Myakka River meets Charlotte Harbor. Additional lands are placed in Preserve FLU via these applications to effectuate this intent.

FLU Policy 2.1.7: Wetland Protection. The County shall protect wetlands so as to be consistent with the objectives and policies within the Natural Resources element and the Coastal Planning element, including the requirement that development proposals and activities protect wetlands so that productive natural functions shall be maintained in the post development environment.

RESPONSE: The lands adjacent to Peace River are intended for wetlands and conservation and will continue to be protected upon approval of this amendment. As discussed above, the removal of the marina will serve as an environmental enhancement and reduce impacts on sensitive lands adjacent to the River.

FLU Policy 5.7.4: Commercial Landscaping and Buffering. The County shall enforce its landscaping and buffer regulations on all new commercial developments to protect the aesthetic qualities of commercial lands; to provide shady, well-landscaped parking lots in all commercial areas; and to provide buffering in order to protect adjacent, less intensive land uses from adverse impacts such as noise, lighting, and traffic. Alternate urban design standards shall be required for areas that are developed under a Revitalization Plan, an Emerging Area Plan or a Special Area Plan.

RESPONSE: The Pattern Book and companion PUD Concept Plan will ensure appropriate buffering and land use placement to ensure compatibility between internal residential and mixed use areas, as well as appropriate screening and protections for abutting residential neighborhoods.

In addition to the above specific policies, the amendments will achieve the County's stated goals of creating more sustainable forms of development, reducing carbon footprints, reducing VMT, and concentrating new growth to the Urban Service Area.

VII. Conclusion

Based upon the above information, the proposed amendments are consistent with the Goals, Objectives and Policies of the Charlotte 2050 Comprehensive Plan and the intent for development in the CGMU future land use category. The amendment will reduce the environmental impacts of the project by designating more of the site within the Preserve future land use category and ultimately lowers the intensity of the project, thereby reducing impacts on public infrastructure. For these reasons, the Applicant respectfully requests approval of this petition.

Traffic Impact Study

RE: *Harbor Village*
Charlotte County, Florida
Comprehensive Plan Amendment Traffic Impact Study

Dear Mr. Bing:

A Transportation Impact Study (TIS) has been prepared for the Harbor Village development generally located east of S McCall Road and Gasparilla Road, in Charlotte County, Florida. The site location and the conceptual site plan are attached for reference.

In accordance with *Charlotte County Engineering Design Manual Part 7 Traffic Impact Statement*, this analysis includes an evaluation of the transportation impacts of the proposed Comprehensive Plan Amendment (CPA) for the short-term (2029) and long-term (2045) periods.

NARRATIVE

The Applicant is undertaking a CPA for the subject property generally located east of S McCall Road and Gasparilla Road, in Charlotte County, Florida. The approved Future Land Use (FLU) for the site is Compact Growth Mixed Use (CGMU). The Applicant is seeking to change the FLU to reduce the amount of CGMU to add areas for Preserve and update the Master Development Plan/Pattern Book. Currently, the site is approved for the following land uses and maximum densities:

- 3,960 single family dwelling units
- 1,509,807 square feet of commercial

The project site is now proposed to consist of the following land uses and maximum densities:

- 3,475 single family dwelling units
- 1,000,000 square feet of commercial
- 400,000 square feet of industrial

This analysis evaluates the transportation impacts associated with the proposed CPA on the nearby study area roadway network. Specifically, the transportation impacts were evaluated for the short-term (2029) period and long-term (2045) period.

Project Trip Generation

The anticipated project trip generation for the proposed development was based upon the Institute of Transportation Engineers' (ITE) *Trip Generation Manual*, 11th Edition, for the approved and proposed densities. The following Land Use Codes (LUC) were utilized:

- LUC 210 (Single-Family Detached Housing)
- LUC 820 (Shopping Center (>150K))
- LUC 110 (General Light Industrial)

As identified in Table 1, the proposed development is anticipated to reduce the previously approved project trips by 745 net, new p.m. peak-hour trips (-439 entering, -304 exiting). Internal capture was calculated based upon ITE 3rd Edition and pass-by rates were considered for LUC 820. According to the pass-by rates provided in ITE's *Trip Generation Manual* 11th Edition, LUC 820 has a pass-by rate of 19%.

Scheduled Improvements

The Work Programs for Charlotte County, Florida Department of Transportation (FDOT) District 1, developer committed improvements, and the Capital Improvement Program (CIP) for Charlotte County were reviewed for capacity enhancing improvements, which are currently planned and funded for construction within the immediate vicinity of the project site. Based upon this review, there are

no anticipated improvements within the study impact area. The existing lane geometry was used in the analysis of existing and future roadway conditions for the study roadway segments.

Project Trip Distribution

The project traffic attributed to the development was distributed to the roadway network from the project site. Trip distribution and assignment was based upon the results of the select zone analysis using the FDOT District One Florida Standard Union Transportation Model Structure (FSUTMS) planning model, specifically the Existing plus Committed (E+C) network. The trip distribution model output is provided for reference.

Short-Term (2029) and Long-Term (2045) Study Area

The study area roadway segments are those that are defined as significantly impacted roadways, with the project traffic representing 5.0% or greater of the available roadway capacity within a five-mile radius of the project site, per the *Charlotte County: 2023 Roadway Level of Service Data* report. As shown in Table 1, the proposed trips are anticipated to reduce in comparison to the approved trips. Therefore, only the first directly accessed roadway segments were included in the study area roadway network as follows:

- CR 771 from Marathon Boulevard to SR 776
- SR 776 from CR 771 to El Jobean Bridge

Short-Term (2029) Future Traffic Volume Development

In accordance with Part 7 (Traffic Impact Statement) of the *Charlotte County Engineering Design Manual*, service volumes and peak-hour traffic volumes included in the *Charlotte County: 2023 Roadway Level of Service Data* report were utilized for the analysis of existing roadway conditions.

Future traffic volumes consist of two components: project traffic and background (non-project traffic) traffic estimates. Future background traffic is defined as the growth of existing traffic forecasted to the short-term analysis year for the proposed development by applying the respective growth rates provided in the *Charlotte County: 2023 Roadway Level of Service Data* report to the existing volumes. Traffic volumes were grown to the short-term year of 2029.

Project trips identified in Table 1 were assigned to the distribution for the p.m. peak-hour. Proposed project traffic was added to future background volumes to determine future total (2029) volumes at the study intersections.

ROADWAY ANALYSIS

Short-Term Roadway Analysis

Existing Roadway Conditions Analysis

A generalized roadway analysis was conducted for the study roadway segments using the existing p.m., peak-hour traffic volumes provided in the *Charlotte County: 2023 Roadway Level of Service Data* report. As indicated in Table 2, the study roadway segments currently operate at an acceptable LOS during the existing condition except for the roadway segment of SR 776 from CR 771 to El Jobean Bridge.

2029 Background Roadway Conditions Analysis

A generalized roadway analysis was conducted for the study roadway segments using the future background peak-hour traffic volumes. As indicated in Table 3, the study roadway segments are anticipated to operate at an acceptable LOS during the future background condition except for the roadway segment of SR 776 from CR 771 to El Jobean Bridge.

According to the Community Planning Act of 2011 (also known as House Bill 7207), improvements to study roadway segments that are identified to be needed for acceptable operations in the future background conditions (without project trips) may be assumed in the 'Background with Improvements' scenario and are not the responsibility of the developer. Based on the background roadway analysis findings, the following Community Planning Act of 2011 improvement was assumed in the roadway analysis:

- SR 776 from CR 771 to El Jobean Bridge
 - Widen from 4-lanes to 6-lanes

The results of the background condition roadway analysis with the Community Planning Act of 2011 Assumed Improvements are summarized in Table 4 and indicate that the study roadway segments are anticipated to operate below the LOS D service volume standard thresholds, during the background conditions scenario with Community Planning Act of 2011 assumed improvements.

2029 Future Total Roadway Conditions Analysis

A generalized roadway analysis was conducted for the study roadway segments using the future total p.m. peak-hour traffic volumes. As indicated in Table 5, the study roadway segments are anticipated to operate at an acceptable LOS during the future total conditions with Community Planning Act of 2011 assumed improvements.

Table 5: Short-Term Future Total Peak-Hour Roadway Conditions with Community Planning Act of 2011 Assumed Improvements

Long-Term (2045) Future Traffic Volume Development

Existing Roadway Conditions Analysis

As previously indicated, a generalized roadway analysis was conducted for the study roadway segments using the existing p.m. peak season, peak-hour traffic volumes provided in the *Charlotte County: 2023 Roadway Level of Service Data* report. As shown in Table 2, the study roadway segments currently operate at an acceptable LOS during the existing condition except for the roadway segment of SR 776 from CR 771 to El Jobean Bridge.

2045 Background Roadway Conditions Analysis

A generalized roadway analysis was conducted for the study roadway segments using future background 2045 traffic volumes. To obtain peak-hour volumes from the District 1 FSUTMS model, the annual average daily traffic (AADT) was multiplied by FDOT's Standard K of 9% to obtain peak hour volumes. The model output is attached for reference. The projected 2045 volumes generated by the District 1 FSUTMS were lower than the existing 2024 traffic volumes provided in the *Charlotte County: 2023 Roadway Level of Service Data* report. Therefore, to provide a conservative analysis, a growth rate of 2% was applied to grow the existing roadway volumes to the long-term analysis year (2045).

As shown in Table 6, the study roadway segment of SR 776 from CR 771 to El Jobean Bridge is anticipated to operate above an acceptable LOS (greater than 1.0) during the 2045 background conditions.

Table 6: Long-Term Background Peak-Hour Roadway Conditions

Roadway	From	To	Service Volumes		Existing (2024) Volumes ¹	Background (2045) Volume ²	Greater Than LOS D Standard?
			Existing Laneage	LOS D Service Volume			
				Peak-Hour Two-Way Volume ¹			
CR 771	Marathon Blvd	SR 776	4D	3,222	1,767	2,678	No
SR 776	CR 771	El Jobean Bridge	4D	3,222	3,417	5,179	Yes

1. Obtained from the *Charlotte County 2023 Roadway Level of Service Data*

2. Obtained by growing the existing volumes to 2045 by using a growth rate of 2%

Similar to the short-term background conditions analysis, based on the long-term background roadway analysis findings, the following Community Planning Act of 2011 improvement was assumed in the long-term roadway analysis:

- SR 776 from CR 771 to El Jobean Bridge
 - Widen from 4-lanes to 6-lanes

As shown in Table 7, the study roadway segments are anticipated to operate at an acceptable LOS (less than 1.0) during the 2045 background conditions with assumed improvements.

2045 Future Total Roadway Conditions Analysis

A generalized roadway analysis was conducted for the study roadway segments using the future total p.m. peak-hour traffic volumes. As indicated in Table 8, the study roadway segments are anticipated to operate at an acceptable LOS during the future total condition with assumed improvements.

Table 8: Long-Term Future Total Peak-Hour Roadway Conditions with Community Planning Act of 2011 Assumed Improvements

CONCLUSION

The Applicant is undertaking a CPA for the subject property generally located east of S McCall Road and Gasparilla Road, in Charlotte County, Florida. The approved Future Land Use (FLU) for the site is Compact Growth Mixed Use (CGMU). The Applicant is seeking to change the FLU to reduce the amount of CGMU to add areas for Preserve and update the Master Development Plan/Pattern Book. Currently, the site is approved for the following land uses and maximum densities:

- 3,960 single family dwelling units
- 1,509,807 square feet of commercial

The project site is now proposed to consist of the following land uses and maximum densities:

- 3,475 single family dwelling units
- 1,000,000 square feet of commercial
- 400,000 square feet of industrial

Overall, the study roadway segments are anticipated to operate below the LOS D service volume standard thresholds during all scenarios with Community Planning Act of 2011 assumed improvements.

After your review of this updated TIS, please let us know if you have any questions or comments.

Adjustment Factors

The peak hour directional service volumes should be adjusted by multiplying by 1.2 for one-way facilities
 The AADT service volumes should be adjusted by multiplying 0.6 for one way facilities 2 Lane Divided
 Roadway with an Exclusive Left Turn Lane(s): Multiply by 1.05
 2 lane Undivided Roadway with No Exclusive Left Turn Lane(s): Multiply by 0.80

Exclusive right turn lane(s): Multiply by 1.05
 Multilane Undivided Roadway with an Exclusive Left Turn Lane(s): Multiply by 0.95
 Multilane Roadway with No Exclusive Left Turn Lane(s): Multiply by 0.75
 Non-State Signalized Roadway: Multiply by 0.90

This table does not constitute a standard and should be used only for general planning applications. The table should not be used for corridor or intersection design, where more refined techniques exist.

* Cannot be achieved using table input value defaults.

** Not applicable for that level of service letter grade. For the automobile mode, volumes greater than level of service D become F because intersection capacities have been reached.

Public Infrastructure Assessment

HARBOR VILLAGE COMPREHENSIVE PLAN AMENDMENT PUBLIC FACILITIES ASSESSMENT

The proposed amendment will reduce the density from 3,690 dwelling units to 3,475 dwelling units and reduce the non-residential intensity from 1,509,807 SF to 1,400,000 SF - an FAR of 0.02724. Thus, the amendment will not increase the impacts on public facilities.
