

Charlotte County suggestions for Lee County to consider:

- 1) Would Lee County consider pausing or narrowing enforcement while ROW parking is restored and studies are completed?
- 2) Could seasonal, time-limited, or targeted measures address concerns more proportionally?
- 3) Is Lee County open to collaborative study or pilot programs before permanent restrictions remain in place?
- 4) Consider an overlay zone related to ROW areas, similar to what Charlotte County has in place for Manasota Key.
- 5) Both counties coordinate a request to increase parking spots at state park locations on Boca Grande.
