

John Osanitsch – 15586 Margo Circle, Port Charlotte, Fl. - [Linkedin Profile](#) [click here](#)

My wife Kim and I moved here to find our place in retirement. Presently, I am an Advisory Board Member on the MSBU for SGC Waterways. I also Mentor for the Port Charlotte Chapter 318 of SCORE a resource partner of the U.S. Small Business Administration whose mission is to help aspiring and existing businesses in Charlotte County succeed. I am an active member and served as the Chairperson of the By Laws committee for the SGC Yacht Club.

We are full-time residents here in Charlotte County and are enjoying spending time getting to know our neighborhood and neighbors. I enjoy boating, scuba diving, pickleball and fishing.

I am also owner / principal at JOBCOE LLC, a consultancy organization specializing in business operations and market penetration strategies for high-tech networking companies. I am an experienced executive with roles of responsibility and professional operational experience encompassing Strategic Problem Solving, Business Planning & Operations, Procurement and Professional Services.

Before moving to SGC, I had held the position of VP Business Operations for Millennium Hotels in NYC, providing asset management for 145 hotels Worldwide. While there I was instrumental in breaking ground on a 260 room hotel and 270 room condo complex in Sunnyvale Ca. I also bring to the table over 25 years of executive management experience spanning both Fortune 500 companies and start-up company environments. I have had the privilege of holding executive roles – as CEO & EVP of Business Operations at Kenetec. President and CEO of Mariposa Technology, a company sold to Marconi Communications, and then nominated to Marconi's Global Executive Team (top 1%) with endorsement by the Marconi Board. Other positions during my career included Vice President for Global Strategic Sourcing at Ericsson, VP of Business Development and Strategic Markets at AFORE, VP Sales and Customer Service for Quarry Technologies, EVP of Sales & Marketing at Andes Networks Inc. and have held management positions in sales, marketing, engineering, and professional & customer services with General DataComm and started my career with Eastman Kodak as a Services Engineer.

As I wind down my career, I look forward to becoming involved with more community activities and welcome the opportunity to contribute to growth in Charlotte County.
