**RE: ADDENDUM #2, RFP NO. 20250710, DESIGN - Bayshore Live Oak Shoreline**

**PROPOSAL DUE DATE: 3:00 p.m. (EST), OCTOBER 29, 2025**

Firms are hereby notified that this addendum shall be made a part of the above-named proposal and contract documents. The following are issued to revise/clarify the proposal and contract documents, and these items shall have the same force and effect as the original proposal and contract documents. Proposals to be submitted on the above-specified date at Purchasing shall conform to the revisions and clarifications as listed herein.

### **ITEM # 1 QUESTIONS/ANSWERS**

**Q1: Does the County have a general layout plan of the proposed additions to the park (17,500sf boardwalks, T-dock fishing pier, water taxi pier, etc.)? If so, can this be shared?**

**A1:** These are not additions. They are repairs and/or replacements depending on the approach. These were existing amenities that were destroyed in Hurricane Milton and have been deemed a total loss. Part of the scope requires an assessment of repair alternatives that could include "like for like" or a more resilient solution. Plans of what was existing are attached.

**Q2: Can the County offer any additional information or details on the proposed park features? This would include site lighting, landscaping, water fountains/pavilions, etc.**

**A2:** Those items are not included in this scope.

**Q3: Will water, fire, and electrical be required on the boardwalks, fishing pier, and taxi pier?**

**A3:** Electrical for lighting is part of the project scope. Water is not. Fire suppression may be required depending on design approach. The previous design did not because it was predominantly a concrete structure.

This addendum is binding and is to be considered as if contained within the original proposal documents of RFP No. 20250710. Firms are required to acknowledge receipt of this addendum on their proposal forms.

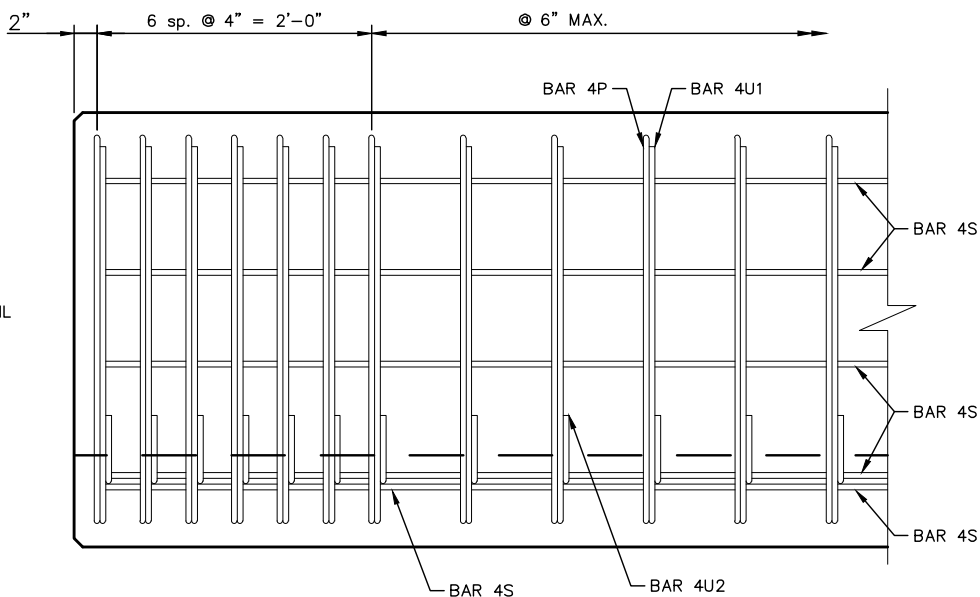

Diagram illustrating the layout of reinforcement bars for a concrete slab. The diagram shows the cross-section and plan view of the slab, detailing the placement and dimensions of the reinforcement bars.

**Reinforcement Bars:**

- BAR 4P:** Cross-section view showing a U-shaped bar with a width of 12" and a height of 2'-10". The top flange has a width of 6" and a thickness of 10".
- BAR 4U1:** Plan view showing a bar with a length of 11'-0" and a width of 2'-9".
- BAR 4U2:** Plan view showing a bar with a length of 11'-0" and a width of 2'-9".

- 1) All reinforcing steel dimensions are out to out.
- 2) 0.5"Ø Prestressed Strands shall be ASTM A416, Grade 270 seven-wire low relaxation strands, stressed to 30980 lbs each.
- 3) Cut wedge to recess Prestress Strands at the end of the beam after detensioning without damaging the surrounding concrete, see "Strand Recess Detail on FDOT Standard Index 20010 sheet 2 of 2 dated 07/01/14.
- 4) Epoxy coat ends of beams, including clipped and chamfer surfaces, with two layers of Type F-1 epoxy compound within 7 days of detensioning. Prepare concrete surface and apply in accordance with the manufacturer's recommendations. The finish thickness of the epoxy coating must be a minimum 1/16".
- 5) Beam concrete shall be Class VI,  $f_c = 8500$  psi with a minimum release strength of  $f_{ci} = 6500$  psi.
- 6) Beam shall conform to Section 450 of the Standard Specifications.
- 7) Anticipated camber of 69'-9.5" beam after release of prestress at centerline of span is 0.796" (downward). This is the net camber of the dead load (1.133" downward) and the prestressing camber (0.337" upward). The fabricator shall add additional camber to the beam to eliminate the net downward camber and should anticipate a long term creep coefficient of 3.0 in determining the final beam camber beyond 120 days.
- 8) Anticipated camber of 59'-8" beam after release of prestress at centerline of span is 0.356" (downward). This is the net camber of the dead load camber (0.6" downward) and the prestressing camber (0.244" upward). The fabricator shall add additional camber to the beam to eliminate the net downward camber and should anticipate a long term creep coefficient of 3.0 in determining the final beam camber beyond 120 days.
- 9) Do not release strands prior to casting the concrete barriers (i.e. sides of U-Beam) and prior to all concrete reaching  $f_{ci}$ .

The additional insured endorsements shall not limit the scope of coverage for the County to vicarious liability but shall allow coverage for the County to full extent provided by the policy, even if those limits exceed those required by this contract. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation. All general or auto liability insurance coverage provided shall not prohibit the Contractor and Contractor's employees or agents from waiving the right of subrogation prior to a loss or claim. The Contractor hereby waives all rights of subrogation against the County.

**Insurance Review** – Insurance requirements are subject to periodic review by the County. The Risk Manager or designee is authorized, but not required, to reduce, waive, or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced or is not needed to protect the interests of the County. In addition, if Risk Management determines that heretofore, unreasonably or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Risk Manager or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the County, inflation, or any other item reasonably related to the

County's risk. Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual, or alleged, on part of the County to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part to the County.
