PROJECT DESCRIPTION:

Construct a Special Needs saferoom to accommodate individuals with special needs requirements during and after a storm event.
The proposed Special Needs safe room construction aims to establish a robust and reliable 65,376 sf facility that will serve as a dedicated Special Needs Shelter for the County. This purpose-built structure would provide a secure and resilient haven during severe weather events or tropical disturbances. Equipped with state-of-the-art design features, the saferoom would ensure the safety and well-being of vulnerable individuals by offering reinforced protection against high winds, flying debris, and other hazards associated with such emergencies.

PROJECT RATIONALE (Include Additional LOS Detail, if necessary):

The county has no special needs saferoom, relying on an agreement with a local church for such purposes. The arrangement presents several challenges including termination of the agreement, logistics of setup and storage of supplies, limited access, and lack of an onsite generator.

OPERATING BUDGET IMPACT:

Personnal SVC 1FTE
Non-personnel SVC Operating/Maintenance
