

May 1, 2025

TO WHOM IT MAY CONCERN:

The current economic environment and changes have force Energreen America to announce a **10% price increase across the product range**.

This price increase has May 1st 2025, as date of effect.

We request to modify the contract pricing to include this increase.

Rationale

The devaluation of USD over EUR has negatively impacted our purchases of machines, our manufacturing is currently in Italy and negatively impacted by this change. **(Loss in value YTD 8.7%)**

United States Dollar to Euro

Furthermore, the **10% tariff** on all European products has been in effect since April 2025.

Thank you for reviewing this document, we look forward to receiving feedback and processing the price change ASAP.

The quality of ENERGREEN equipment have proven record of satisfied customers across the United States and Worldwide, a unique product offering in an ultra-specialized and niche sector.

This increase aims to maintain profitability in our future sales and sustain current and future sales with the same high standard we have provided customers to date.

Best regards,

Alessandro Cazzin

CEO

ENERGREEN AMERICA INC.
